

Wading Through Registration

Registration, closed classes, cards, cards... Some make it and some don't. Wading through the maze of cards is Betty Estes, this week's Kernel Sweetheart. Betty is one of the lucky ones who made it through registration this semester. She is a junior education major from Catlettsburg.

New Parking Plan

Students Register 1,700 Cars

More than 1,000 cars have registered cars without the been registered and 400 per registration decal will be fined \$25 after Feb. 16, according to

The presidential screening committee is continuing its quest for President Frank G. Dickey's successor, but as yet has decided on no definite candidate.

"It will be about 30 days before

the screening committee for presidency. Judge Sutherland stated that there was no valid basis for the report.

"I can't imagine where he (the Courier reporter) got his information; certainly not from any of the committee members," Sutherland said.

"Dr. Rose is one of the most active contenders for the job," Sutherland added, "but he certainly is not the only one."

"Some of the committee members have traveled to colleges and universities in the East and North to make inquiries about some of the candidates, but none of them have been formally contacted," Sutherland said.

Dr. Frank G. Dickey has resigned as president of UK, effective June 1, to become the executive director of the Southern Association of Colleges and Schools.

The screening committee was appointed to investigate the qualifications for a new president and to submit names of qualified candidates to the Board of Trustees. Those were recommended to the committee for the job included college and university presidents, high ranking government officials, scientists, and personnel in the fields of liberal arts.

Four Frosh, Ishmael Out For Season

Starting guard Charles (Chili) Ishmael and four freshman basketball players have been declared scholastically ineligible for the second semester.

Ishmael, a junior, fell one quality point short of the required 2.0 University average.

The freshmen, Mickey Gibson, Jim Rose, Larry Conley, and Dick Broderson, failed to attain the 2.0 or C, standing in their first semester at the University.

Coach Rupp has indicated that Terry Mobley will probably start in Ishmael's starting slot this weekend as the Cats invade Mississippi.

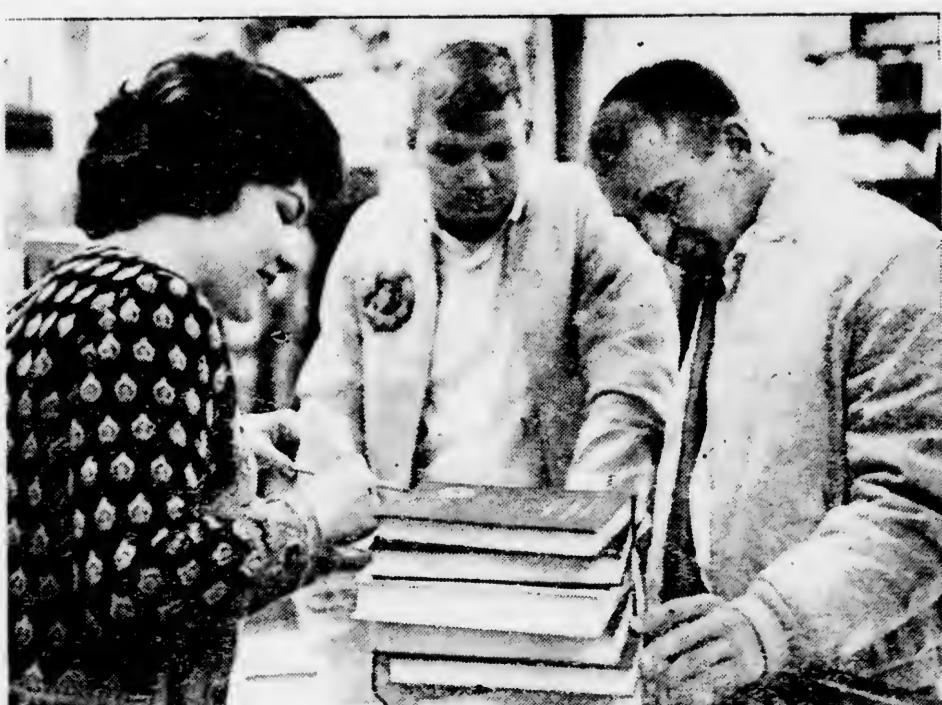

Spring Pledging

Fraternity rushees will sign preference cards for the spring semester pledging from 8 to 12 a.m. tomorrow in Room 205 of the Student Union Building.

A standing of 2.0 must have been made for the fall semester and a minimum of 12 hours must have been carried.

From 1 a.m. Saturday until sign up is over there will be complete silence, meaning no rushees in the houses or fraternity men in the dorms. There will be no fraternity men on the second floor of the SUB during sign up and no last minute rushing within the area.

Final announcements of pledges will be at 2 p.m. Sunday in Memorial Hall.

Got Any Midnight Oil?

The above students are choosing their partners companions, and for others who will not be for the long nights to come during the spring around next year, the books will become dust semester. Many long hours will be spent with these catchers.

Concert Series Offers Bernstein Gala, Snow

The Central Kentucky Concert-Lecture Series will present "A Leonard Bernstein Gala" and a lecture by Edgar Snow, American journalist who traveled throughout Communist China during 1960, tonight and Monday respectively.

Both programs will begin at 8:15 p.m. in the Coliseum.

Tonight's Bernstein program is divided into three parts featuring compositions by Bernstein from the opera, ballet, and Broadway musicals.

"Trouble in Tahiti," a capsule opera in seven scenes, will represent the opera of Bernstein. The opera is concerned with the trivia of suburban life. It deals with the trials and tribulations of a suburban couple, Sam and Dinah.

Music for the ballet will be represented by "Fancy Free" featuring the members of the American Ballet Theatre. The ballet stars John Kirza and Christine Mayer with choreography by Jerome Robbins.

Music from Broadway musicals which Bernstein has composed will feature selections from "On the Town," "Peter Pan," "West Side Story," and "Candide."

Heading the singing cast is Robert Rounsville, original star of "Candide," and the motion picture, "Carousel," and a leading tenor of the New York City Opera.

Featured also, is Claire Alexander, lyric coloratura soprano, who has already scored in opera and on such television programs as "Omnibus."

In addition, dancers of the American Ballet Theatre and or-

chestra will be presented in the production.

Monday night's lecturer, Edgar Snow, was the only American journalist permitted by both the U.S. State Department and the Peking Government to travel throughout Red China during 1960. He was in China during the social revolution there and considered an authority on the numerous changes in the world's largest nation.

Four of Mr. Snow's 10 books have been book club notices in the United States. Best known is "Red Star Over China," a modern classic consulted by students and historians. Included in it was a full life story of Mao Tse-tung, as told to Mr. Snow by China's number one leader of today.

Snow first saw China in 1928 on a trip around the world, when he was 22. Fascinated by the ancient land, and its civilization seen under the assault of revolutionary change, he stayed on in the Far East for 13 years.

The story of Snow's 26 years as a roving foreign correspondent is told in his recent autobiography, "Journey to the Beginning."

Students will be admitted by ID cards. Student wives may purchase a ticket for \$5 providing their husbands have ID cards. The tickets may be bought from Lucy Hogan in Pence Hall.

This L-shaped, contemporary-designed building will be the new home of the College of Law in 1964. The building, which will cost approximately \$1,100,000, will be located at the left of Memorial Hall.

New Building Planned For College Of Law

The University's College of Law will move into new quarters late in 1964. The move will be the result of a new \$1,100,000 building on which construction will begin this year.

The new three-story building will have an L-shaped contemporary design made of a concrete frame with brick facing and marble trim. It will be built at the intersection of Graham Avenue and South Limestone.

The law library will be large enough to contain 160,000 volumes compared to the 68,000 volumes in Lafferty Hall library.

The new building will contain 38,000 square feet and will house a 250 seat courtroom, classrooms, seminar rooms, lounges for students and faculty and 18 faculty offices. It will be heated by steam and will be completely air conditioned.

Lawrence Cammack, Lexington, is the project's architect and the New York City firm of Voorhees, Walker, Smith and Haines is the consulting architectural firm. Porter White, Lexington, and Hugh Dillehay and Associates, Lexington, are the engineers.

The current Lafferty Hall, the college's home since 1937, was named for William Thorton Lafferty, the first dean of the UK College of Law. The college was organized in 1903 as the fourth college of the University.

In 1912 it was admitted to membership in the Association of American Law Schools and began publishing its own law review, becoming one of the first schools in the nation to do so.

The law college began opera-

Judo Course Being Offered This Semester

The Oriental sport and art of judo will be offered for academic credit beginning this semester.

Dr. Don Cash Seaton, head of the Department of Physical Education, said judo will be included in a one-hour credit course with archery, swimming and horseback riding.

The class will meet from 12 to 1:15 p.m. each Tuesday and Thursday with Arthur Charles as instructor. Charles is an airman first class stationed with the Air Force ROTC detachment at UK. Instruction will be open in separate sections to both men and women, according to Dr. Seaton.

Kernel Meeting

Students, are you interested in writing? There will be a meeting for all students who would like to write for the Kernel either full or part-time this semester. We would especially like students in art, law, and English. All interested meet at 4 p.m. Wednesday, in Room 211 of the Enoch Green Journalism Building.

Dr. Ganji Appointed To United Nations Job

Dr. Manoucher Ganji, visiting assistant professor of international law at the University, has recently been appointed as Assistant Head of Advisory Services in the field of Human Rights for the United Nations.

Dr. Ganji will begin his work at the permanent post Sunday.

The services were established under the provision of the United Nations Charter dealing with human rights and fundamental freedoms, and specifically the provision made in the U.N. Charter that there should be created with the organization a commission on human rights whose task will be the promotion of respect for fundamental freedoms and human rights.

Dr. Ganji's post is under the Secretariat division of the United Nations.

The Advisory Services conducts regional seminars in all parts of the world in which lawyers, statesmen, and other officials meet to discuss human rights and civil problems.

The services also help newly independent nations draft bills of rights for their constitutions and offers technical advice on the problems of human rights.

Dr. Ganji is one of the youngest members of the Secretariat to hold such a high post.

He has recently published a book entitled "International Protection of Human Rights," and

has published several articles dealing with human rights.

NEAT—Describes the appearance "Dave Pence" (Pre-Law freshman) presented the other P.M. His outfit was not original, but was put together neatly and the cut and fit was good. "Dave" was wearing one of the popular Navy Blue Blazers, with the traditional metal buttons. Light grey slacks (trim lined). His pale blue shirt was made of Oxford cloth and sported a button down, crew collar with tapered body. The cravat he chose was perfect. A silk Repp stripe of dull red and navy (very slim) and navy blue socks of "Marvin" and stretch belt also of navy and you get the over-all picture of coordinated neatness and color blending. Nice going "Dave."

ANSWER to several inquiries. I am out of the hospital and glad to be back in the "Kentuckian Shop". I had planned to be last week, but it was just one of those things No could do. Again thanks for the cards and etc.

PREDICTION — I believe seersucker will be a big, big fashion item this coming season. For the first time the leading belt companies are featuring seersucker sport belts (sharp) and, Denim will be bigger than ever. Seersucker and denim sport shirts, sport coats, sport slacks and swim wear. Yes, swim wear. Remember I told you.

DO YOUR PUPPIES hurt while traipsing about campus or about town? Then my tip is try a pair of "Hush Puppies". Honestly they are the most comfortable casual wear kicks you can don. Very nice looking. Wonderful with sweaters, sport coats and all leisure wear. I use them for house shoes.

PARDON ME but my prediction of the return of cardigan style blazers and sport coats was true. This spring you will see style conscious sharps sporting these collarless coats. I for one am glad to see their return.

SPEAKING of returning. Am glad to see everyone back and things in its usual turmoil. When you are away this town is "Gloomville."

Social Whirl

By NANCY LONG

Here we go again! Spring Semester—1963 style. Registration, that mad, competitive event, featured "Nothing Left" or "Sorry, Classes Filled" as the main attraction in the glorious coliseum.

This is the time when everyone wishes they were seniors. There's something about that magical phrase "graduating senior". It can get you into classes that have been filled since September.

The latest fad seems to be learning how to cheat registration. The system which went into effect about a year ago is not at all the infallible idea our superiors thought it was. There are more honor students this semester than ever before, after all they get to register the first day at 8 a.m. You can also find unguarded doors into the coliseum, friends at the gates, cohorts in crime at the head of the alphabet who are willing to swap deals with the unfortunate Z's. The possibilities are unlimited. Students really show their ingenuity and accumulated learning when it comes to applied theory.

Besides beginning the semester with frustrations over registration, there is also the traumatic experiences which arise when one gazes at the beautifully tanned individuals who publicly boast a relaxing trip to Nassau. The courage it takes to tell them how nice their tan looks is indescribable! First there's a lump in the throat, and then an empty feeling in the stomach. Lips began to tremble as the half-hearted compliment pours forth.

In wider circles this feeling is termed jealousy or perhaps even envy. Whatever the name, the situation exists. Oh well, maybe Spring vacation will be our turn.

And then there's Rush! Today's the last day all you lucky freshmen can be rushed. Isn't it funny how popularity changes. This fall, the freshmen men were just completely left out in the cold. Nobody would even give them directions to the men's dorms. But now, oh but now! Fraternity men are running around with bright smiles and offering the glad hand to any freshman they see. Especially popular are the ones who made their grades. Yes, Virginia, knowledge is an asset.

Fraternities had visions of grandeur a couple months ago. They could almost see their sparkling pledge class of 30 men.

It wasn't so tough having to spend \$900 on parties and bands when one thought of that tremendous pledge class. Looks like the vision has diminished somewhat. Everybody says that all the men they were rushing are now on probation. Maybe deferred rush has its advantages, but fraternities have their doubts as their marvelous pledge class dwindles to 9 or 10 men. And all because

JOB IN EUROPE

Grand Duchy of Luxembourg, Jan. 11, 1963—Would you like to work at a Swiss resort, a Norwegian farm, a German factory, a construction site in Spain, or a summer camp in France? Thousands of paying summer jobs (some offering \$190 monthly) are available in Europe to U.S. students.

The American Student Information Service, celebrating its 6th Anniversary, will award TRAVEL GRANTS to first 1500 applicants.

For 20 page Prospectus, complete selection of European jobs and Job Application send \$1 for Prospectus, handling and mailing, reply write, naming your school, to Dept. E ASIS, 22 Ave. de la Liberte, Luxembourg City, Grand Duchy of Luxembourg. The first 800 inquiries receive a \$1 credit towards the purchase of the new student travel book, *Learn, Learn & Travel in Europe*.

Social Activities

MEETINGS

AFROTC Sponsors

The Air Force Sponsor Corps will have a regular business meeting at 4 p.m. Monday in Barker Hall.

SUB

The Student Union publicity committee will meet at 4 p.m. Monday in Room 206 of the Student Union Building.

Westminster Fellowship

The Westminster Fellowship will have a dance at 8 p.m. tomorrow at the center.

There will be a supper meeting

at 5:30 p.m. Sunday and the guest speaker will be Mrs. Norman Chrisman. The topic of her speech will be "Hymns in the Presbyterian Church." A short worship service will follow.

Hillel

Hillel Foundation will have their February dinner meeting at 5:30 p.m. Sunday at the Temple Adath Israel. The program will include a movie "The Dead Sea Scroll" and plans for B'nai Brith sponsored Hillel Weekend will be discussed. It is important that all members attend and transportation will be provided at Jewell.

Dames Club

The Dames Club and their husbands will hold a spaghetti dinner 6:30 Saturday night at Canterbury House. Following dinner, they will attend a square dance from 8:00-10:00 p.m. at Women's Gym.

IBM

Interviews On Campus

Feb. 13, 20

Marketing/Systems Engineering Science and Engineering Customer Engineering Programming

Careers with a future at IBM:

Advances in data processing at IBM are creating new areas for professional growth for career-minded men and women. Opportunities are in:

- Research
- Development Engineering
- Manufacturing Engineering
- Programming
- Marketing
- Systems Engineering
- Customer Engineering

Qualifications: Bachelor's or advanced degree in Electrical, Mechanical, or Industrial Engineering; Mathematics, Physics, or other Sciences; Economics, Business Administration, Accounting, or Liberal Arts. Our brochures provide the full story.

World of opportunity at IBM:

IBM develops, manufactures, and markets a wide range of data processing systems and equipment that is performing an increasingly vital role in business, industry, science, and government. Across-the-country operations offer a choice of laboratory and manufacturing locations in:

- Endicott, Kingston, Owego, Poughkeepsie, Yorktown, N.Y.
- Burlington, Vermont
- Lexington, Kentucky
- San Jose, California
- Bethesda, Maryland
- Rochester, Minnesota

More than 190 IBM sales and service offices are located in major cities throughout the U.S.

Room for advancement at IBM:

At IBM you range beyond academic specialties into exciting new fields. IBM programs include company training courses, tuition-refund courses at nearby universities and schools, and company-paid competitive scholarships for full-time study at a university of your choice. IBM is an Equal Opportunity Employer. Our representatives will be on your campus soon to discuss typical careers, various training programs, the advanced education program, financial rewards, and company benefits. Make an appointment through your placement officer. He can also give you additional information on the career of your choice at IBM.

If you cannot attend the interview, write or call: S. Parrish, Br. Mgr., IBM Corp., 628 E. Main Street, Lexington, Kentucky. 5-2840.

Greek Discrimination

With all of the grades in and the group standings about to be compiled, it is important at this time to point out several facts about the University's policy concerning the All Campus standing which fraternities and sororities are required to meet in order to remain off social probation.

Kentucky is the only member school of the National Interfraternity Council where the fraternities are required to meet the All Campus standing. Two years ago, at the National Interfraternity Convention held in Boston, the University of Kentucky Interfraternity Council was awarded a plaque for achieving an average above that of the All Men's standing. At that time, University fraternities were not required to meet the All Campus average. This shows one salient fact, that the social fraternities on campus are proud of their achievements, and do not try to merely "get by" by obtaining the lowest grade standing possible in order to remain off probation.

Almost Never

There exists within the vast framework of the University, the University Health Service, a smooth-functioning, well-planned operation that never ceases to be of great value to the student body. Well, almost never.

It has been called to our attention that the gaining of admission to this hallowed ground is seldom easy and very often impossible. Let us review the plight of one University student and his frustrated attempt at gaining admission.

The plot begins on the first day of registration this semester, when our student, having a violent attack of the flu, goes to the Medical Center for treatment. Once there, our sickly hero is informed that he must produce evidence that he has paid his student fees in order to be eligible for treatment. The student tells the authorities that he has been too sick to register, and that he has informed University officials of this situation. Once again he is told

During rush, fraternities point to their grades with pride, for they wish to show the rushes that their house is one which enforces "quiet hours," and contains a wholesome atmosphere for study.

We feel that the present policy concerning social Greek letter societies is discriminatory in nature.

Why should these organizations have to meet higher standards than their members, who only have to obtain a 2.0 to stay off probation? Why should the fraternities and sororities have to make higher grades than the professional societies, departmental clubs, service organizations, and all residence halls, which conduct and carry on social activities throughout the school year?

We feel that the University Faculty should lower the present requirements for the Greek organizations or up the standards for all other groups on campus.

'That Fella Really Solved Our Registration Problem'

The Readers' Forum

Information

To The Editor:

In view of certain statements which have appeared in the *Kernel* regarding the Marching Band, scholarships and Music Department policies which may have been accepted at face value on the false premise that "silence gives consent," the following facts are presented as a matter of information.

• The number of music scholarships is not determined by the Music Department. The grants-in-aid currently available to the department are designated by approval of the Board of Trustees.

• The need for additional scholarships in music (as in other areas of the University) has been apparent for a number of years. It is unfortunate that it has not been possible to obtain sufficient scholarship funds for all deserving students. However, this is a goal for which we have been striving for some time and it is hoped that the situation can be remedied in the near future.

• Marching Band members are eligible for grants-in-aid to schools and approved by the Board of Trustees. The number of the available grants is usually awarded to members of the Marching band. It should be noted, however, that scholarships could not be awarded to all band members at the present time even if all available grants-in-aid were used

for this purpose.

• The time of the appearance of the Band at basketball games was determined after consultation with the Director of Athletics and the band has reported at the time agreed upon.

• Appearances of the band (and all other student musical organizations) are subject to approval by the Dean of the College of Arts and Sciences and are approved in terms of relative importance to the University, demands on the time of the student, and consideration of classes which would be missed.

• Comments regarding the size of the band as compared to previous years are both inconsistent and inaccurate as indicated by the band membership of the past four years: 1959-1960; 1960-61; 1961-62; 1962-63.

• It was also implied that the selection of qualified faculty members should be determined by the student. If interest in such matters is genuine it would seem that some effort could have been made to find out the procedure which is followed.

• No one has ever asked which band is the best. Mr. Miller is well qualified both as a band director and for his other teaching responsibilities.

• The story critical in writing and translating information to make no contribution to the band, the Music Department, or the University.

—BRIAN ERZERMAN, Head
Department of Music

JFK Seeks More Power Over Nation's Health

By JOHN BARBOUR

WASHINGTON (AP)—President Kennedy asked yesterday for broad new federal powers to police drugs, cosmetics, health devices and potentially dangerous chemicals that pour daily into the American scene.

"Social Security health insurance must be enacted this year," he said. He called also for federal laws and funds to:

- Boost funds, \$113 million to the National Institutes of Health for more research. NIH is spending \$703 million this year.
- Speed the training of doctors, dentists and nurses at a rate to keep up with the growth of U.S. population.

- Increase the national health insurance fund to \$1 billion a year. The fund is now \$400 million.

The president also demanded an end to the use of tobacco products, cosmetics and health devices that pollute the environment. He provides only one pollutant that might contaminate the environment.

"We need to broaden our surveil-

lance and control of pollution in the air we breathe, the water we drink and the food we eat," he said.

The Food and Drug Administration cannot now require the adequate safety of cosmetics before they reach the market and it needs such authority, he said.

The FDA needs power to determine whether foods, non-prescription drugs, cosmetics and the wide range of health devices are being made and sold in accordance with the laws, he said.

The president asked also for authority to require makers of various health items for treatment of children to prove that their products are safe for use on children before they can be used.

He also asked Congress to extend the Hill-Burton Act, due to expire in 1961, for five more years. This act gives federal authority to finance

catastrophe, public or private charity—these are not acceptable alternatives in the richest country on earth."

The only immediate congressional comment came from House Speaker John W. McCormack who said the message reveals the president's "vital concern" for the nation's health.

The president—in the money items which would boost health services \$250 million over fiscal 1963—asked for more funds to help build schools and expand existing schools to train more health personnel.

He asked Congress to extend the Hill-Burton Act, due to expire in 1961, for five more years. This act gives federal authority to finance

localities the expense of building new hospitals.

He asked also for a single bureau of environmental health to guide research and other federal efforts in control of chemicals poured into the environment. In a current study of the problem, he said: "Special attention is being given to the control of pesticides. Nearly 180 million pounds of pesticides valued at more than \$1 billion are used in the United States every year."

The president pointed to great losses to both health and property from pollution of air, land and water. He said: "We must move to a cleaner environment."

Phi Kappa Tau House

The Kappa Chapter of Phi Kappa Tau will move into a new 28-room colonial house this fall to be located at 409-413 Columbia Avenue, which will cost more than \$100,000. The new building will be a two-story brick, with a full basement, air conditioning, and tentative plans for a swimming pool.

Applications Available For Miss Lexington

Applications are now being taken for the Miss Lexington Contest. The pageant, sponsored by the Metropolitan Women's Club, will take place March 26 in the Henry Clay auditorium.

Applicants will be screened in mid February.

The rules of eligibility are:

1. The entrant must be single.
2. The entrants' age on Labor Day in the year of competition shall not be less than 18 or more than 28.

3. The entrant must possess and display talent in a routine not to exceed three minutes. The talent may be singing, dancing, playing a musical instrument, dramatic art display, dress designing, creative poetry, writing, and so on, or

Science Building Open For Spring Semester

The chemistry and physics departments are moving into the new science building on Rose Street as the spring semester opens this week.

The physics area has two lecture halls seating 200 students each, eight classrooms seating 40 students each, 29 faculty offices and seven faculty office-laboratories. The main laboratories are equipped for graduate and professional research.

The chemistry facilities include a lecture room seating 270, a seminar room with 200 seats, and three smaller lecture rooms seating 150 each.

The nine classrooms have space for about 49 students each and 15 instructional laboratories can accommodate 48 each. Twelve faculty offices and 15 office-laboratories complete the chemistry area.

Both departments will be served

by a central library with a capacity of 15,000 volumes and seating accommodations for 90 students. The library has subscribed to 250 scientific journals. A librarian will be on duty fulltime.

The site-type structure will house a \$465,000 nuclear accelerator placed on purchase order last month.

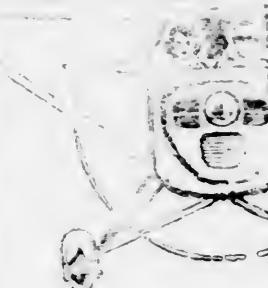

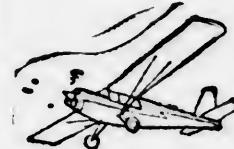

The building will have its own engineer and basement space is allotted to machine, maintenance and glass shops. A network of Pyrex glass plumbing serves all laboratories.

The new structure is the second most expensive building on the campus, ranking below the \$28 million Medical Center.

UK Drops From SEC Race

Tech Loss Fatal To Cats

By RICH STEVENSON
Kernel Daily Sports Editor

Kentucky's 1962-63 basketball season ended on Ron Scharf's pair of last minute shots that sent the Cats to a 66-62 defeat to eliminate the Blue from the SEC title race.

While winning three of five during the break, the Tech loss ended the Cat drive for Kentucky's 22nd Southeastern Conference championship.

Kentucky victories came over Xavier, 90-76, Georgia, 74-67, and Florida, 94-71. The losses were to Tennessee, 78-69 in an overtime, and to Georgia Tech. All the games except Xavier were conference encounters.

The five UK outings were as follows:

Kentucky's second half performance against Tennessee was one of the Cat's worst in several years. The Cats built the 33-20 halftime lead to 16 points, then went to pieces, and lost by nine in overtime, 78-69.

The defeat was the first time the Cats have ever lost four games on the Coliseum court in the same season.

Playing before 30 former UK basketball stars in the first annual basketball K-Night, the Big Blue lost the game on the free throw line. Outhitting the Vols 29 to 25 from the floor, UK was able to hit only 11 of 17 free tosses to the 28 of 32 caused by Tennessee.

Coach Adolph Rupp said, "Why, if Cliff Hagan, Frank Ramsey, and company had a 16-point lead in the second half, I could have gone home and stayed until Wednesday."

The Cat's first half performance had been one of the best all year and gave no hint of the disastrous second half. After building the lead to 37-21, the Cats could do nothing else right.

The score was tied 63-all at the end of regulation time. The Vols outscored the Cats 15-6 in the five minute extra period to hand UK its second SEC loss by 78-69.

Leading scorer for the Cats was All-America Cotton Nash with 19 points. Ted Deeken, starting at center after several fine relief performances, added 18. Roy Roberts with 12 and Chili Ishmael with 10 points gave the Cats four men in double figures.

The Cat's first outing in the semester break turned out to be one of the roughest in several years. Finishing the non-conference portion of the schedule, the Cats shot-down the Musketeers of Xavier by 90-76.

Two players were ejected from the game and four technical fouls were called in the rough-and-tumble tilt. Ted Deeken and Leo McDermott of Xavier were ejected for fighting mid-way through the second half. Each received a technical. X's Bob Pelkington and coach Jim McCafferty each received technicals in the first half.

Each team had five players in double figures.

Cotton Nash was the game's

leading scorer with 28 points. Scottie Baesler added 16. Charles Ishmael tabbed 12, and Roy Roberts and Terry Mobley scored 11 each.

Sophomore Steve Thomas led Xavier scoring with 15 points. Pelkington and Joe Geiger added 14 each. Mike McMahon tabbed 12, and Tom Freppon's 10 gave the Muskies their fifth man in double figures.

Kentucky now leads Xavier 25-2 in the series. It was the first meeting since 1955.

Georgia Tech sophomore Ron Scharf's two last minute baskets shot-down all title hopes of the Kentucky Wildcats. Tech edged UK 66-62 on these baskets.

The Tech loss left the Cats with a 3-3 SEC record, eliminating Kentucky from the title race. Two of these losses were to the Techmen. Kentucky has now lost five of the last eight games with the Whack Hyder men. Tech topped the Cats 86-85 in two overtimes in the conference opener for both teams earlier this year.

The Cats, however, went down fighting. The score was tied 15 times, and the lead changed hands 21 times in the cliffhanger.

Guard Charles "Chili" Ishmael was the leading scorer for the game with 18 points. Roy Roberts and Cotton Nash tied for the number two spot with 11 each.

Coach Rupp said Nash tired in the second half. The All-America was playing on an ankle he had sprained only two nights earlier against Xavier. He was also recuperating from a stomach virus that kept him from practicing that morning.

Kentuckian R. D. Cradock led

Tech scoring with 13 points. Jim Caldwell tabbed 12 and Scharf's final two baskets gave him 10 for the game.

Tech hit 26 of 60 field goal attempts for 43.7 percent. Kentucky hit 23 of 58 for 39.7 percent. Each team hit 16 free throws.

Kentucky again needed the help of ace relifman Ted Deeken to subdue the stubborn Georgia Bulldogs 74-67. The former Louisville Flaget star scored nine of the Cats' last 11 points.

The Cats played one of their sloppiest games of the year. Kentucky hit only 25 of 71 for 35.2 percent. Georgia canned 22 of 59 for 37.3 percent.

The Cats now lead Georgia 32-6 in the lopsided series that started in 1921.

Five players finished in double figures for the Cats, including two subs. Scotty Baesler and sub Don Rolfe tied for scoring honors with 15. Cotton Nash had 13. Deeken 12, and Roy Roberts 11.

Georgia's sensational sophomore, Billy Rado, was held to only nine points. Jimmy Pitts led Bulldog scoring with 17.

Chili Ishmael, playing his last game before being sidelined with scholastic ineligibility, drilled through 30 points as Kentucky drowned the Florida Gators.

Ishmael, who originally came to UK on a football scholarship, scored his personal high on 13 of 23 from the field and four of five free tosses.

Cotton Nash, with his 14 points, became the 13th Kentuckian to score 1,000 points for the Big Blue. The All-America is 12th in the standing with 1,004. He passed Bobby Watson who had 1,001.

Again against the Gators Ted Deeken came in in relief and finished in double figures. He was third scorer with 13. The other two Cats in double figures were Roberts and Rolfe, with 10 each. Baesler just missed with nine.

The Cats jumped to a 12-4 lead after five minutes and were never in trouble against Florida. Kentucky sank 37 of 81 attempts from the field for 45.7 percent. Florida hit 29 of 65 for 42 percent.

The Wildcats swing through the state of Mississippi this weekend, playing Ole Miss Saturday and meeting the statemen of Babe McCarthy on Monday.

Ole Miss' Rebels are led by the SEC's second leading scorer, Donnie Kessinger, who scored 49 last Saturday night.

That's when the Linde Company representative will be on campus, will be interviewing qualified engineering students who feel their future lies in research or applied engineering.

The LINDE Laboratories, for example—at Tonawanda (Buffalo), N.Y., Speedway (Indianapolis), Ind., Newark, N.J.—provide an unusual stimulating environment for the scientifically-minded to grow and develop. The many achievements of LINDE people in research and applied engineering have borne a rich harvest of progress: Over half of LINDE's current sales volume comes from products and facilities that did not exist 15 years ago.

Plan now to save this date for a LINDE representative... and get step closer to your future. Contact your engineering placement office for an appointment.

University of Kentucky 17-0 lead and then coasted to their 13th victory of the year by a final 87-61 margin over the Lexington YMCA squad.

Kittens handed the Tennesseans their first loss of the season by a 77-63 count.

Mickey Gibson led the way as UK freshman rallied from a 36-34 half deficit. Gibson fired through 10 shots, Tom Kron scored 14, and Rose and Larry Conley added each to give the Kittens four in double figures.

The UK freshman hit 31 of 65 shots (47.7 percent). The Baby Vols hit 30 of 50 for 46.0 percent.

Gibson again led the way as the Kittens romped to a 97-71 victory over the Xavier freshman. The former third all-state tabbed 23 points, and Larry Conley scored 19. Tom Kron fired in 18. Larry was the fourth freshman starter in double figures with 12.

12 Kittens saw action and in the scoring column. Jim tabbed nine, Dick Broderick added five, Wayne Barnett had four, Billy Cassidy, Bob Rich, and Charles Royalty hit two, and Charles Heinrich added the last point.

Kentucky's Kittens jumped to a

hit a torrid 59.1 percent on 52 of 88 shots. Bellarmine hit only 13 of 44 for 29.5.

The victory left the Kittens with a 14-2 record for the season. Four games remain and no decision has been made to cancel these games due to the scholastic ineligibility of Gibson, Rose, Conley, and Broderick.

Mickey Gibson equaled the entire Bellarmine freshman squad as he poured through 40 points in the Kittens' 113-40 romp.

Gibson hit 19 of 34 from the field to break the old freshman mark of 17 baskets held by Johnny Cox and Cotton Nash. Cox and Gibson both played high school ball at Hazard. He added two of three free throws and snared 21 rebounds in the record-breaking performance.

Backing up Gibson were three other Kitten starters in double figures. Conley hit for 24, Rose scored 22 and Kron added 18. Kron also played an outstanding floor game stealing the ball 11 times.

The freshman outscored Bellarmine 56-25 in the first half and 67-15 in the final half. The Kittens

Aggie Sale Elected Basketball President Of Alumni K Club

Kentucky's first "player of the year," Forrest (Aggie) Sale, has been elected head of the basketball section of the Alumni K Club. The election took place during K-Night festivities Jan. 19.

Sale, a two-time All-America, is now principal at Harrodsburg High School after serving as basketball coach there for many years.

The Alumni K Club was started at the football K-Night this past season and was enlarged to include the basketballers.

Humsey Yessin, four-time student manager in the "Fabulous Five" days and oft-time referee for freshman games at the Coliseum, was elected vice president.

Dick Rushine, a football letterman and field secretary of the UK Alumni Association, was chosen secretary. Carl (Hoot) Combs was elected treasurer.

Wallace (Wah Wah) Jones, Kenny Rollins, Louis McGinnis, and T. R. Bryant were elected directors of the group.

If you have trouble saying it...

Say it with a Parker

If you're a little shy and have difficulty saying "I love you" or even "I like you very much"—say it with a Parker.

The new Parker Arrow makes a beautifully expressive gift and looks as if you paid a small fortune for it. It only costs \$3.95, however, which should leave you with enough date money for an impressive presentation ceremony in romantic surroundings such as the second booth from the left in your local drugstore.

dark blue, light blue, light gray, and bright red, with a choice of four instantly replaceable solid 14K gold points. Gift-boxed with five free cartridges.

P.S. To girls: a Parker Arrow—besides being a very romantic gift—comes in one size (the right one), should last at least ten times longer than a scarf or a tie, and should bring in a harvest of correspondence you'll cherish the rest of your life.

Lowe Named Director Of Student Projects

Dick Lowe, a UK graduate, was named to the position of Director of special student projects at the January meeting of the University's Board of Trustees.

Lowe will be responsible for the fund raising activities of the Little Kentucky Derby which provides money for student scholarships, said Dr. Kenneth Harper, acting dean of men.

He will buy entertainment for any campus organizations wishing to make use of his services, reducing the cost of talents to the organizations, Dr. Harper said.

Lowe will also assist in placing advertising in newspaper or on radio and television.

"While my main duty is to help solicit funds for the Little Kentucky Derby, I will also help all campus organizations, both Greek and non-Greek, in hiring entertainment," Lowe said.

The new director said he hopes to arrange frequent appearance by nationally known groups such as the Smothers Brothers, who will appear here for the Little Kentucky Derby, the Kingston Trio, and others.

While at UK, Lowe was president of the 1962 senior class of the College of Arts and Sciences, manager of Radio Station WBKY, chairman of the 1961 LKD, rush chairman and vice president of Delta Tau Delta fraternity, and chairman of the World University

Service fund raising drive for one year.

He studied communications for a year in the Syracuse University Graduate School. Lowe was employed in the advertising department of WAVE TV, Louisville, before accepting the new position.

Church Group Plans Race Relations Meetings

The Lexington Council of the National Council of Religion and Race will hold a meeting on race relations at 8 p.m. Tuesday at Christ Episcopal Church on Upper Street.

The meeting will be sponsored by the Social Religious Committee of University Church Women.

Speakers for the meeting will be the Rev. Canon Robert Estill, who will report on the proceedings of the National Committee meeting in Chicago last year, and Clayton Jones who is presently the assistant director of the Kentucky Human Rights Committee.

Rabbi Robert Rothman and

Pledge Reception

Following the Edgar Snow lecture Monday night, the Junior Panhellenic will have a reception in his honor in the main hall of the Student Union Building.

The meeting will be for all sorority pledges. Girls wanting to attend the lecture and reception will be given late permission.

the Rev. Elmer Moore will be associate speakers.

The meeting comes on the 100th anniversary of the Emancipation Proclamation. It will follow the first meeting of the National Council of Religion and Race in Chicago.
